Subject: European Declaration

Dear Colleague,

A pan-European Declaration has been prepared (see attachment) which will be sent to the European Commission, European leaders, UNFCCC and Academies of Sciences in mid September. Simultaneously, there will be press conferences organised, starting in Brussels. Currently, signatures are being collected from persons who give a valuable contribution to the climate debate and are recognised as such. You will see already a lot of great names on the list.

Please look at the declaration and let me know if you want to support us. If you agree, let me know how you want to be mentioned on the list of supporters.

Looking forward to hearing from you,
Guus Berkhout, Emeritus Professor of Geophysics, The Netherlands
Founder of Climate Intelligence Foundation (CLINTEL) and Coordinator of this Initiative (ED)
Member of The Royal Netherlands Academy of Arts and Sciences (KNAW)
Senior Member of the Dutch Academy of Engineering (AcTI)
